OBJECTIVE

"Highly motivated React.JS developer with a strong foundation in html, CSS and JavaScript, eager to learn and grow in a dynamic team environment."

EXPERIENCE

Task Tracker (React JS)

2023

- Implemented features such as adding, editing, and deleting tasks, setting task reminder based on priority.
- Utilized React components, state management, and hooks to create a dynamic and interactive user interface.
- Demonstrated proficiency in modern web development practices, including responsive design and accessibility considerations.

Weather App (JavaScript)

2023

- Developed a weather application using a third-party API.
- Integrated the API to retrieve real-time weather data and display current conditions and forecasts.
- Demonstrated proficiency in handling asynchronous operations and manipulating data using JavaScript.
- Ensured a responsive and visually appealing design, allowing users to access weather information on various devices.

EDUCATION

BBA Finance | Chameli Devi Institute of Professional Studies

2019 - 2022

SKILLS

- React JS
- JavaScript
- TypeScript
- HTML
- Redux
- CSS
- Fast Learner

CERTIFICATES

- **FreeCodeCamp** Responsive Web Design Certificate.
- **FreeCodeCamp** JavaScript Algorithms and Data Structures Certificate.
